Global Sign & Design was a tremendous asset for mobile outdoor LED signage. From a quick delivery to programming display messages that change daily, our experience with Global Sign & Design was outstanding. Their board was legible from a distance and captured the attention of everyone in its proximity. We look forward to utilizing Global Sign & Design for future needs.

A handwritten signature in black ink, appearing to read "Ross Miller". The signature is stylized and written over a large, light-colored, irregular shape that resembles a signature or a mark.
